Sourced strictly from **AUGA** farms

Only strictly controlled, self-produced organic raw materials make their way into the AUGA's compound feed. All AUGA feeds are BIO certified according to EU standards. AUGA utilizes Innovative production processes and only the most modern mixing, heating, and dosing systems to ensure that our feed is high quality and pathogenic bacteria-free.

AUGA organic animal compound feed is a protein-rich balanced feed for layer hens and broilers that, in combination with the farm's own grain, provides a perfect complement for any ration. The interaction of different protein sources and the fiber content ensures maximum feed and nutrient digestibility. It is a perfectly balanced composition that contains all the necessary minerals and vitamins for healthy birds, and is tested and regularly used in AUGA's own organic chicken farms.

	Name	Energy	Protein	Nutrition			Packing options	Type
				Nutrient	Unit	Structure		
Broiler	STARTER <21d.	12,8 MJ AE	22%	Dry matter	%	90,61	Bulk 15-40kg Big bulk 1000kg	Pelleted
				Raw fibre	%	2,87		
				Raw fat	%	8,29		
				Raw ashes	%	6,57		
	GROWER 22-40d.	12,6 MJ AE	18%	Dry matter	%	89,50		
				Raw fibre	%	2,75		
				Raw fat	%	6,60		
				Raw ashes	%	6,43		
	END >40d.	11,6 MJ AE	18%	Dry matter	%	89,14		
				Raw fibre	%	2,95		
				Raw fat	%	5,84		
				Raw ashes	%	6,35		
Laying hens	From 18,5 weeks	11,4 MJ AE	16%	Dry matter	%	87,92		
	From 65+ weeks			Raw fibre	%	3,86		
				Raw fat	%	5,41		
				Raw ashes	%	13,31		

Custom recipes optional and contract manufacturing possibilities.
