Organic Grain Products and Sugar

GROWN USING
NATURAL AND
EARTH-FRIENDLY
METHODS

SOURCE
OF FIBER

SOURCE OF
PROTEIN

Organic for you
Sustainable for the planet

Sourced strictly from **AUGA** farms

By preparing our own seeds and selecting grain varieties with a high protein content, we are able to produce highly nutritious grain products.

Our organic grains, along with reliable processing technology and full process control, result in high quality end products.

AUGA organic sugar beets are grown on our farms and processed in our local factory, immediately after harvesting, to ensure freshness.
